**Subject:** Re: background study for WTC

Harold--Thanks again for HPD's help in preparing building lists for the WTC background study. EPA has been actively contacting building owners, and apart from loft owners, are finding willing participants.

The list of loft owners has been exhausted without success. Could HPD provide a new list of lofts? Is there also a Loft Board contact name and number to which EPA might reach out and ask for volunteers?

Thanks again, Jim

Thanks for taking care of that Jim.

I am taking you up on your offer to assist with communicating to HPD on our lofts or lack of lofts issue. If we can get additional information on residential lofts it would be appreciated. I believe that Vincent Coluccio from your office was assisting us with this previously.

jim,  
there are lots of lofts in chelsea- although not above 59th, we could conceivably think about those.
