Subject: Air Monitoring

Importance: High

Based on audits conducted on 07/11/02 at 110 and 111 Reade Street there seems to be some discrepancies about air monitoring on those days.

According to Amad Soloki who conducted the audits, he saw no air monitoring being done but I received air monitoring data.

I spoke to Carlstein on 07/15/02 concerning this matter and he will check with Al then get back to me.
