Subject: PLAN FOR PRESS RELEASE ON TASK FORCE

Sometime in the very near future, potentially tomorrow, EPA plans to send out a VERY short (1 or 2 paragraph) press release about the fact that the Task Force on Indoor Air in Lower Manhattan is convening next week. We do not intend to make the task force meeting open to the public, but we think it's important that the public knows we are moving forward. We will not say much, only that the Task Force exists and that they will discuss various issues. There will be no mention of plans to test or sample - just the fact that we are looking at whether there is a need to test or sample. This will not go beyond our letter to Hillary Clinton when we told her that we were setting up the task force. I do not yet have a draft, but will have one for you all to look at tomorrow AM.

Subject: FW: Delivery of ALCP Letters

Below is a summary of our efforts to get the letters out. We've exhausted the means available to locate building management reps at 41 locations. Suggest City DOF may be able to provide a more in-depth search through taxation records.

I'll bring up a hardcopy with specific details.

Should you need further assistance please let me know.

Paul.

Subject: Delivery of ALCP Letters

The following is a summary of the delivery of the ALCP Request for Environmental Hazard Assessments and Summary of Clean-up Activities letters:

Total Letters:	157
Delivered:	116
delivered by hand:	85
faxed:	31
Undeliverable:	41

For the 41 undeliverable letters, each building was visited twice, during which attempts were made to locate building management or obtain information about building management. Additionally, attempts were made to call the building management contacts provided by building occupants, displayed at building entrances, or listed in the database file given to us by the Asbestos Unit. Additionally, a search of the internet was conducted to locate a responsible party. The majority of the owners or management companies listed, did not have phone listings on the database or with directory assistance.

The 31 letters that were faxed were done so after each building was visited twice unsuccessfully, then we were able to reach the management companies or owners by phone and request a fax number. This was done with approval of Krish of ALCP.

Subject: Roll out of task force

As it now stands the plan is to announce the task force on the Mayor's radio show with Senator Clinton calling in from DC tomorrow morning at 10am, We will also release a press release on the task force. I am drafting the release off of the the proposal, if you would like to see it please let me know. The most pressing piece of information is the 800 number and the start date of the hotline. If the OEM folks could let me know as soon as possible that would be greatly appreciated.

thanks,

Jordan

Subject: POSSIBLE CHANGE IN PLANS ON PRESS RELEASE

Upon further reflection, we may wait to put out a release until after the Monday meeting. I will let you know as soon as I we have a decision. In any case, looks unlikely that anything will go out beforehand.

Subject: Air Monitoring Tech Course
Importance: High

All Asbestos Analysts are required to attend the Air Monitoring Tech Course scheduled for April 17th and 18th, 2002. The course will be held in the low rise building, 6th floor Conference room from 8:30am to 4:30pm.

It is imperative that the Analysts attend and complete this training in order to obtain the licenses required by NYS for conducting air monitoring in New York.
