Bob and Mike--The attached flyer (draft) is designed to increase awareness of the hotline. At the same time, it will also ask that privately conducted indoor air and/or dust test results be shared with the City. I'm glad to have them sent to me, but I'm wondering if they could be sent to you for addition to the list DEP has already begun?

If DEP is the point of contact, what address (and email?) should we include as the place to send test results?

hotlinepromo.doc

Jim,
Here's the final version. If callers want to know where they should
send reports they have of indoor air tests from private consultants, do
you want to have them sent to your mail box?

**Office of the Mayor
City Hall
New York, New York 10007**

LOWER MANHATTAN

AIR QUALITY

HOTLINE

(212) 221-8635

Mayor Michael R. Bloomberg has directed city agencies to establish a hotline to answer questions and provide information on environmental conditions in downtown Manhattan. This hotline is being coordinated by the Office of Emergency Management and is staffed by employees of the New York City Department of Health and Department of Environmental Protection.

The hotline is open Monday through Friday from 11:00 AM to 7:00 PM.

Residents, businesses, and office workers in downtown Manhattan are invited to call the hotline. Callers are welcome to provide the hotline with information regarding any air quality tests that were performed privately.
