Jane,
 I just spoke w/ Geri about this one. She was wondering if Krish got this and responded to it or HazMat. It is not really Air/Noise, we don't have the date. She wanted to know if you wanted us to call this person if Krish or Hazmat didn't respond & refer them to EPA website??

This is not technically a FOIL request but we should handle it in a similar manner - Marie please talk to Bob/Geri about what data we have that is available (and I note that we have no obligation to submit "raw" data, if that means draft or unverified numbers). If we do have final, confirmed data on air testing, I have no problem with arranging for a time to let these people see the data. I don't believe that any grounds exist under FOIL for denying access.

If we don't have the data but EPA does, we should refer these people to the appropriate contact at EPA.
