

November 2, 1981

The Port Authority of NY & NJ
One World Trade Center
New York, NY 10048

RE: Contract No. Lt.-245,
Rehabilitation of Bridges
over Dyer Avenue at W. 37th,
W. 38th and W. 39th Streets
Between 9th & 10th Avenues
Borough of Manhattan

Att: Roger LoMenzo, P.E.

Dear Sir:

This is in reply to your submittal of drawings and specifications for the above referenced project with a letter dated October 5, 1981. As was related to you in our telephone conversations of October 23, 1981 and October 30, 1981, in which we requested existing sewer information, no review of the submitted plans could be done without such information shown on the plans. Also it should be noted that there was no previous submission of this project for our review, and that this department was not informed in advance with your proposed work as required to evaluate its impact on the existing sewer facilities within the contract limits.

Please expedite submission of the requested sewer information, namely your contract Nos. LT-160.019 and LT-160.020. Our review will continue on receipt of this information.

cc: DiMartino
Novotny
