Re: THE WORLD TRADE CENTER - Contract WTC 776.00 - Church Street
Underpass at Dey Street - New Escalators

Dear Mr. Novotny:

Our previous submissions of drawings for the subject work were prepared to establish lanes only for all utility piping and appurtenances and, therefore, did not include all the details of construction. You were unable to approve these drawings because they lacked such detail.

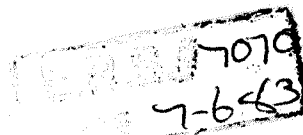

We have therefore prepared a set of Contract Drawings which includes all detail for the sewer relocation. Three (3) sets of these Contract Drawings, numbered 1 through 40 and dated May 27, 1983, accompany this letter for your comments and approval.

Please feel free to call me at 466-4106 regarding any questions on the above.

Sincerely,

James G. Carlock, P.E.
Project Administrator
World Trade Center Planning
