Re: THE WORLD TRADE CENTER - Church Street Underpass at Dey Street -
Street Rehabilitation and New Escalators - Utility Relocation

Dear Mr. Swedlow:

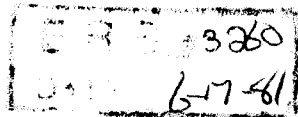

Since our last Utility Relocation meeting for the subject street work, Con Edison provided us with details of a proposed method of relocating their steam lines. We have incorporated this information on Utility Relocation Drawing Nos. WTC-C1-81 through WTC-C6-81, dated June 2, 1981.

We have also included a change in the method of relocating the sewer line which I understand was discussed with you.

I include herewith two (2) sets of the above drawings and a copy of the proposed work schedule for your review and request that you contact me at 466-4106 if you need any assistance.

Sincerely,

James G. Carlock
