Subject: Mayor's Office of Emergency Management
Project 96-1346

Please find the revised P&E report and summary with the revisions per our conversation on Friday July 18, 1997. The revisions reduce the back-up systems requirements substantially, however it is suggested that all requirements be verified and confirmed by landlords architect and engineer once final programmatic requirements for the agency are confirmed.

I am available at (212) 207-6151 if you need any further clarification or if you have any questions.

Thank-you.
