Re: OEM CO #016

Dear Sir:

In response to Sivan Gounder of Cosentini Associates, relating to Item #7 of our quotation dated 10/14/98, the panels were approved as submitted without notation.

The panels in question are:

EDPL-23E, ULP-23W, ULP-R and ELP-23C1

These specific panels had no notations on the returned submission, therefore no comments or re-submission was required. The panels were approved on 8/6/98. We had panels on site by 8/14/98.

As of this writing, this change is not approved and has not been executed. Our work is in place and will have to be re-done. Each day the task becomes more and more difficult to augment. Our quotation stands as is.

However, we did neglect to credit 2 breakglass stations. The wiring has been installed and the devices have been delivered.

If you have any questions, please do not hesitate to call.

Very truly yours,

ROBERT B. SAMUELS INC.
