Walter Weems
Building Manager
Silverstein
7WTC

Dear Walter:

I am passing for payment the attached invoices from Forest Electric in conjunction with the cable reconfiguration of the 7th Floor in the WTC. Due to the installation of the Mayor's generator, we were required to reconfigure our cabling scheme to avoid future problems that may have occurred from the EMF emitting from the generator.

Sincerely,

A handwritten signature in black ink, appearing to read "John R. Hill".
