Comments:

Install one (1) double duplex NEMA 5-20R outlet on fiber rack located in column 42 on first floor. Run 2# 4 & 1#8 ground in 1" conduit from panel ELP-7G to nearest pullbox in existing 4" fiber optic cable conduit run from 23rd floor serving fiber rack. Extend this cable from from pull box to double duplex outlet on fiber rack via existing fiber optic cable conduit. At the fiber rack provide power circuit conduit as required. Terminate wire in 20 ampere 1 pole breaker in panel ELP-7G. Provide cable reducers to facilitate cable terminations.
