Mr. Jack Trabit
First Deputy Director
Mayor's Office of Emergency Management
7 World Trade Center, 23rd Floor
New York, New York 10048

RE: 7 World Trade Center
Mayor's Office of
Emergency Management
Emergency Generator Full Load Test

Dear Jack:

This letter is to confirm our conversation regarding the scheduling of the emergency generator full load test for the MOEM on Saturday, July 17, 1999 (complete black out simulation). Test times are scheduled for 8:00 AM until completion.

Purpose of this test is to confirm that all of your equipment that is powered by your generators, in the event of an emergency, is operating as per specifications.

The presence of your office staff and vendors is advisable in order to monitor if there are any glitches in the system.

Ambassador Construction the General Contractor will be present with all of their sub-contractors to perform these tests.

Once testing is completed your office spaces will be put back onto normal power.

If you have any questions regarding the contents of this letter, please call.

Sincerely,

Walter J. Weems III
Walter J. Weems III
Building Manager
