		REF. SECTION 08710 (Door Hardware) Part 1.2 Quality Assurance: (Sub-category C) Insulgard does not employ and Architectural Hardware Consultant (AHC) in good standing as certified by the Society of Architectural Hardware Consultants Council. For this reason Insulgard will furnish doors prep'd for hardware only.			
		***In reference to the construction cost estimate breakdown form sent to Insulgard - Insulgard Corporation is a supplier/manufacturer of bullet resistant products, not a sub-contractor. Due to the fact we will have no involvement in installation for this project, we should not be required to fill out the supplied form. This should be filled out by Ambassador Construction & any sub-contractors under contract by Ambassador Construction.			
		****Basic HM544 doors & frames prime painted. No spec's on millwork provided for doors. Doors quoted w/wood veneer are based on the availability in sheets in 1/4" thick. No prefinishing. EMI shielding applied to door leaf only. NOT A RADIO FREQUENCY DOOR. Doors are ballistically tested only & EMI shielding will be applied based off of manufacturer's guidelines. (Marteck, Inc.) Door clad w/wood veneer to have aluminum trim on all four edges. No spec's provided for card readers.			

All items are quoted freight COLLECT, unless an amount is shown at right which indicates standard delivery for 1 lot shipment only, or freight prepaid is indicated in body of above quote!
