SUBJECT: Quote #397

Dear Sal:

Enclosed is the quotation for the X-Ray and Video Badging Equipment.

Originally sent you the quote for the Lafayette Street project, we sent you a quote using the October 16th Bill of Materials instead of the October 30th Bill of Materials. The difference between the two is that one BMS for a door that was removed was removed and two smoke detectors and one zone adapter were added. If it is acceptable to you, we will make the substitution in material without correcting your Purchase Order since the additions and deletions result in a negligible change in price.

If you feel we need to change the PO, please call me and we will forward you a revised quotation.

Number of Pages being transmitted including cover sheet: 2
