State NY	Zip 10018	Phone 212-221-7822		State NY	Zip 10006	Phone (212) 962-2300
Contact Person Arnel Javal, Sr. Proj. Mgr/TRC Environmental				Time of Inspection from: 9:20 am to 10:10 am		

I arrived at the premise at 9:20 am. LVI schedule informed that activities include: Exterior Façade removal on 5th and 4th floors; fine clean floor, touch up after TRC/ATC visual on 3rd floor; fine clean floor, touch up after TRC visual; clear floor, scrape fireproofing in shafts, box out debris, loading out boxes to ATC trailer on 1st floor; demo pipes & ducts, box out debris in basement.

North side hoist was under renovation therefore access to the 3rd and 2nd floors was closed.

I proceeded to the decon, signed the log book, don the appropriate level of personal protective equipment to enter the regulated area on 1st floor.
Two workers were present for the decon maintenance, cleaning shower chamber and organizing the clean room.
Negative air pressure on the floor was -0.039.

1st Floor – 35 Asbestos Handlers were inside the work area. Workers on scaffolds were harnessed scraping fireproofing at the west 2 and east side shafts. I observed that **workers at the west 2 side shafts were removing dry fireproofing without spraying with amended water. Foreman on the floor Louis was advised that all surfaces shell be wetted while work is being conducted, and spraying of fireproofing was conducted.**
Other workers were picking up debris, placing into the boxes using metal shovels, cleaning the floor from debris, preparing boxes, replacing filters. 38 Gaylord boxes were on the floor ready for load out. 40 micro trap machines were on and 5 on stand by. Inspection was done on micro trap tents.

Using entrance from 1st floor I proceeded to the basement.

Basement – 22 workers were on site. Two workers were on platform caring down the pieces of metal that was cut at the upper west side ceiling. At the north side of the work area workers were on scaffolds cutting ducts using power tools attached to the HEPA vacuum; Others were spraying the area with amended water, placing debris into the boxes, picking up debris from the floor, preparing boxes. 10 Gaylord boxes were on the floor ready to be taken out. Inspection was done on micro trap machines and tents.
Using exit I went back to the 1st floor.

After following the decontamination procedure I exited the work area.
