MTA Job 01-4906
Water Analyses**

Dear Brian:

Attached find results of the analysis of the water samples taken from the WTC site on June 17, 2002. MTBE level for the sump discharge (B-6 30 hp sump pump) was 43 ppb.

Chlorodifluoromethane was 130 ppb in the sump discharge.

We are also forwarding a copy of the tables which track MTBE and Chlorodifluoromethane concentrations for all of the water sample testing which has been performed on the site.

Dioxin and asbestos results will be forwarded upon Moretrench's receipt of same.

Very truly yours,
MORETRENCH AMERICAN CORPORATION

John F. Donohoe
President
