Page 2, Section B. Roles and Responsibilities,

#6. Personal Air Monitoring - **DELETE**

Page 4, Section D. Specifications

ADD

Personal air monitoring shall be performed by the Cleaning Contractor in accordance with US DOL OSHA requirements. Personal air monitoring will be performed on a minimum of one employee of the Cleaning Contractor per shift per residence during for the first 6 weeks of cleaning operations. This may be extended based on a determination made by EPA and OSHA. Thereafter personal air monitoring samples will be taken at one sample per day. Air samples will be collected in accordance with the procedures specified in NIOSH 7400 Method and analyzed by phased contrast microscopy (PCM) followed by Asbestos Hazard Emergency Response Act (AHERA) transmission electron microscopy (TEM). Analysis of these samples shall be the responsibility of the Cleaning Contractor. Results of analysis shall be provided to EPA by the Cleaning Contractor in an approved electronic format within 24 hours of collection. Copies of the results shall also be sent immediately to OSHA and the Monitoring Contractor. The Cleaning Contractor will make these results available to the employees or their designated representatives for their review in accordance with 29 CFR 1910.1020 and 29 CFR 1926.1101.
