Dear Mr. Orlan:

ATC Associates Inc has conducted aggressive air sampling on the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th and 10th floors at the above referenced school on October 5th, 2001. A total of 53 TEM Air Samples were collected. The analysis was performed in strict conformance with the methodology of the AHERA Final Rule (40 CFR Part 763, October 30th, 1987).

Therefore, based upon the visual inspection and TEM sample results, the aforementioned locations are safe for re-occupancy.

If any questions should arise, feel free to contact us (212) 353-8280 ext. 238.

Sincerely,

Michael Parpounas
Vice President
