NEW YORK NY 10010

Dear MS. LOWD:

Your laboratory's scores for the Environment Laboratory Approval Program (ELAP) March, 2001 Asbestos by Transmission Electron Microscopy Proficiency Test #241 are enclosed.

Each unsatisfactory analytical result requires that the laboratory director investigate the cause of the laboratory's performance and establish a remedial plan. The investigation report and remedial plan must be on file in your laboratory.

If warranted, an "Accreditation Change" page has been included with this report. This page reflects the modifications made to your laboratory's accreditation based on proficiency test performance.

If an "Accreditation Change" page was included with this report, you are to return the appropriate Certificate(s) of Approval for revision within thirty days of the date of this letter.

Sincerely,

Matthew Caruso

Technical Director
Environmental Laboratory
Approval Program
