Re: NYCDEP Ambient Air Sampling Proposal for:

- High School for Economics and Finance
- IS 89
- PS 234
- Stuyvesant High School

Dear Ms. Theodorellys:

The following is our proposal for conducting air sampling for the above mentioned schools. This air sampling will be done continuously for eight (8) hours at street level, with the exact location to be identified by the NYCDEP on the first day of sampling. Sampling for this project shall be done utilizing Phase Contrast Microscopy (PCM) and if necessary Transmission Electron Microscopy (TEM). Our rates are as follows:

Air Sampling Technician (including necessary analysis) \$320.00 per day

The breakdown of this price is as follows:

Air Sampling Technician	\$ 35.00/hour
PCM Analysis 12 hour turnaround time	\$ 7.00/sample
TEM Analysis 12 hour turnaround time	\$ 33.00/sample

For four (4) schools at \$320.00 per day, the rate for providing these services totals \$1,280.00 per day. If you have any questions please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Carey".
