OVERVIEW:

Athenica Environmental Services Inc., is pleased to submit this proposal in response to your solicitation for the provision of our professional services in performing Air Testing and Monitoring during the asbestos abatement project from an experienced and qualified consultant.

FIRM QUALIFICATIONS:

Athenica Environmental Services Inc., is a large and experienced Environmental Engineering firm specializing in asbestos hazard assessment, management and air testing. Our experience is the direct result of the quality technical services we have provided to our clients in the past. As required by law, our team of professionals is licensed by New York State, and holds all pertinent professional certificates.

AIR MONITORING PROCEDURES:

Athenica Environmental Services Inc., will perform the air monitoring and record all data pertaining to same. The duties of the Asbestos inspector will include the following:

1. Air Monitoring in and around the asbestos removal site to determine the effectiveness of engineering controls used by the contractor.
2. Air monitoring and visual inspections upon completion of project.
3. Ensure that work conforms with federal, state and local regulations.

LABORATORY ANALYSIS:

All air sample analysis procedures during the asbestos removal project will be done in accordance with NIOSH 7400 method. Our laboratory is licensed by the Department of Health of the State of New York (ELAP ID# 10955) and we also participate in the NIOSH PAT program for interlaboratory quality assurance. (Lic #11377002). The method of analysis that will be used will be Phase Contrast Microscopy and Transmission Electron Microscopy as is required by AHERA, State and Federal regulations.

REPORT:

Athenica Environmental Services Inc., will provide a written report summarizing all data obtained during the asbestos removal. Included in the report will be the following:

1. Summary and description of the abatement process.
2. Methods of abatement and engineering controls utilized by the contractor to insure non-contamination of the area.
3. List of all air samples collected.
4. Results of all air samples taken in fibers per cubic centimeter.
5. Copies of all pertinent fillings with regulatory agencies.
6. Copies of company's licenses and accreditation.

COST:

Our cost for services as outlined in this proposal will be as follows:

Project Monitor/Air Technician:	\$50.00/h
PCM Analysis:	\$13.00/sample
TEM Analysis:	\$75.00/sample

INSURANCE SUMMARY:

Amount of Coverage:	\$2,000,000.00
Professional Liability	(Two Million Dollars)

Should you wish for Athenica Environmental Services Inc., to provide you with our professional services, please complete the bottom portion of this proposal and forward back to us at your earliest convenience.

Sincerely yours,

Vasilis Bellos
Director of Operations
