pH

STL Edison Sample #	Client ID	Sample Date	Analytical Result Units: std unit
330679	Main_Discharge	02/04/2002	7.83
330680	South_Projection	02/04/2002	8.81

X - The maximum holding time specified in 40 CFR 136.3(e) for Chlorine (total residual), Hydrogen Ion (pH) Dissolved Oxygen (probe), Sulfite and Temperature is "Analyze immediately". The NJDEP Office of Quality Assurance interprets this to mean within 15 minutes. Analysis outside holding time may not be reported to NJDEP for water pollution or drinking water programs.
