Contract No. 20020004649
MTA Job 01-4906
Water Analyses – Sump & Greenwich St.

Dear Brian:

Attached find results of the analysis of the water samples taken from the WTC site on July 8, 2002. MTBE level for the sump was 32 ppb and Greenwich Street wells was 0.3 ppb.

Chlorodifluoromethane was 66 ppb in the sump and 1.0 ppb in the Greenwich St wells.

We are also forwarding a copy of the tables which track MTBE and Chlorodifluoromethane concentrations for all of the water sample testing which has been performed on the site.

Asbestos results for the sump was <3.7 and for Greenwich Street was <0.74.

Dioxin results will be forwarded upon Moretrench's receipt of same.

Very truly yours,
MORETRENCH AMERICAN CORPORATION

John F. Donohoe
